"Both research and intuition tell us that when students are fit, healthy, and ready to learn, they achieve more success in all areas of their lives."
www.michigan.gov

Battle Creek Central High School

Student Health Center

Mission
To enhance our students' well-being, promote healthy lifestyles, protect health, and prevent disease.

Healthy Students are Better Learners

S

Services. Services available to students of Battle Creek Public Schools ages 10-21.

- * Treat minor health problems and injuries
- * Monitor chronic illnesses
- * Conduct sports, camp, and school physicals
- * Diagnose and treat STIs (sexually transmitted infections)
- * Provide HIV testing and counseling
- * Provide pregnancy testing
- * Assist with mental health issues
- * Provide immunizations
- * Provide health education
- * Monitor smoking cessation
- * Offer weight management counseling
- * Provide information about Medicaid provider resources
- * Assist with MIChild/HealthyKids application process
- * Refer to community resources

The SHC does not dispense or prescribe birth control pills or devices or provide abortion counseling, referrals, or services.

H

Health Care. Health care provided by a Nurse Practitioner and Medical Assistant in collaboration with the Calhoun County Public Health Department Medical Director.

- * SHC consults with students health care providers.
- * Fees are based on student income and determined on a sliding fee schedule.
- * Services will be billed to your health insurance.
- * No student is denied services if they are unable to pay.

The Student Health Center (SHC)

was established in 1994 to provide a place for students to access health care, recognizing that students at Battle Creek Central had unmet health needs interfering with their learning.

C

Consent. Each student must have a signed consent for treatment on file to access services at the SHC.

- * Some services, such as pregnancy testing and STI treatment and testing, are considered confidential and do not require parental consent.
- * Information about the time and length of a visit ONLY may be shared with BCCHS staff.
- * Information about the visit is not released to teachers, students, or administrators (unless the information or your condition puts you or someone else in immediate danger).
- * Parents are notified in a medically-appropriate situation.
- * SHC follows HIPAA rules on protecting confidentiality.
