

Parenting Time Transportation

In Calhoun County, the Family Division of Circuit Court has established a standard for parents to follow so as to share parenting time transportation costs.

Unless otherwise specified in the current court order, parenting time transportation is to be provided as follows:

- If both parties reside in Calhoun County, the non-custodial parent provides all transportation costs except in the summer. During summer parenting time, the custodial parent drives both ways for mid-week and his/her weekends.
- If the custodial parent lives outside Calhoun County but within 100 miles, the non-custodial parent picks up and the custodial parent returns the child(ren). During summer parenting time, the opposite procedure is in effect.
- If the non-custodial parent moves from Calhoun County, the non-custodial parent provides all transportation except in the summer. During summer parenting time, the custodial parent drives both ways for mid-week and his/her weekends.
- If the court allows the custodial parent to move from the State of Michigan or more than 100 miles from Calhoun County, then the Court will order appropriate costs of transportation and/or a transportation plan.

From time to time, there may be exceptions to this policy based upon the facts presented.
