

AVOID A REACTION BY TAKING ACTION

FoodSafetyMonth.com

15 million Americans with food allergies dine with family and friends where they feel safe.

WHEN IT'S YOUR CALL

The threat is growing. Is your staff prepared for an emergency?

ALLERGY TRENDS

Studies show food allergies are starting to affect more Americans every year.

FACING THE CHALLENGES

Every three minutes a food allergy will send someone to the emergency room.

The **National Restaurant Association** has partnered with FARE (Food Allergy Research & Education) to create a new training program, the ServSafe Allergens™ Online Course. Together with this year's National Food Safety Month sponsor, Tork®, we are committed to providing consumers and restaurant personnel with the evidence-based education, training and resources needed to make restaurant dining safer for the 15 million Americans coping with food allergies.
