

## Questions & Answers

RFP #01-CCLBA-2020 – Demolition Services

January 16, 2020

### **1. Are asbestos and hazardous material surveys available for the properties?**

The surveys are not provided for the properties listed in the RFP for demolition services because the abatement of asbestos and hazardous material is conducted prior to demolition by another contractor.

### **2. Will lead and cadmium training certificates be required for submission of the RFP?**

If the Respondent does not have Lead and Cadmium Awareness Training Certificates at the time of submission, it would be acceptable to submit a date the training will be conducted for staff if staff was not previously trained. All training certificates for lead and cadmium are a required for the awarded Respondent for their staff working on projects. If a Respondent is awarded projects from the bid, certificates for training must be submitted contingent to a contract agreement.
