She also thanked Financial Director Michele Johnson, Budget Analyst Pam Kline, our Department Heads and staff who work together to provide information for the audit. She noted that because of the way our defined benefit is structured, the county’s contribution rate is capped at 7%. She stated that has an impact on employees and new hires, as it is higher than other counties and should be evaluated in the future. She stated that we are not required to have a one hundred and eighty page audit book but we think it’s valuable to add some things that are not required. She stated that if anyone needs to reference the state of the county, there is good information in the book and this is why we submit our financial statements to the Government Finance Officers Association (GFOA) and we receive the Excellence in Reporting award.

Scott stated the Calhoun Public Safety Information Alliance is made up of agencies that are linked into our crime records data system. She stated it is made up of the county, the City of Battle Creek, Emmett Township and new member Kellogg Community College Public Safety.

Scott stated she attended the kick-off for a work group that the DTMB appointed to create a landing page to reference all reports governments need to access. She stated she is the only county representative. She stated the goal is to have a list of schedules and links to all reports that all government officials need for grant funding.

Scott stated we held a Jail Population Management meeting with Comrs. Frisbie and King and identified potential changes for better reporting. She stated we are trying to shorten the time individuals have to wait for their ability to pay hearing. She stated that hopefully it will lower local population, as we have been around three hundred forty this month.

Scott stated safety meetings are being held and we will be sending communication out soon. She stated we are accelerating changes and improvements because of rising safety concerns.

Scott stated she attended a Summit Pointe Board meeting and received their audit. She stated they changed auditors and it is nice to have a fresh set of eyes on financial reports and controls after so much transition. She stated they did not get unqualified opinion, in fact last year management made a disclaimer that they could not take responsibility for the financial statements because of the change in leadership. She stated this year there was a modified disclaimed opinion; meaning auditors issued an opinion on the income statement but not on the balance sheet because there are still some transactions from prior years with old management.

Scott stated the Internal and BOC Budget Committees met to discuss 2017 budgeting and departments will be submitting their budgets soon. She stated that the current prediction is a two to six percent decrease request to each department.
