

## Questions & Answers

RFP #07-CCLBA-2019 – Demolition Services

August 13, 2019

### **1. Are these projects grant or privately funded?**

Projects listed in the in Appendix A denote the project owner; Treasurer or Community Development Department. The projects owned by the Treasurer will be funded with private funds reserved for demolition of blighted structures.

The Community Development Department projects will be using grant funds from Michigan Department of Agriculture and Rural Development and/or Michigan Natural Resource Trust Fund. This project activity will not commence until the funds are secured for draws on the funds.

### **2. Do we have to register as a vendor with Calhoun County every time we respond to a Request for Proposal (RFP)?**

No, once your company has registered with the Calhoun County as a vendor there is no need to register again. If a bidder has never registered, perhaps heard about the RFP through word of mouth, then they are required to register so that they receive any amended RFPs and/or questions and answers that are posted. Announcements of postings for coded RFPs will be delivered via email to those vendors that have registered.
